

INTERSOS is an independent non-profit humanitarian organization committed to assist the victims of natural disasters and armed conflicts. Its activities are based on the principles of solidarity, justice, human dignity, equality of rights and opportunities, and respect for diversity and coexistence, paying special attention to the most vulnerable and unprotected people.

The programs of **INTERSOS** in Sudan followed two essential directions. Primarily the movements of population between Chad and Darfur started with the crisis of 2004. On the other hand, the displacement that followed a North-South pattern during the crisis in South Sudan and the period post CPA INTERSOS is now implementing in Sudan several humanitarian projects in partnership with UNHCR and UNICEF. Intersos' intervention deals with IDP Camps Management, Hygiene, Water & Sanitation, Education and Profiling in favour of the Sudanese population in a wide area of interventions where the mobility conditions are often difficult and uncomfortable. The projects carried out by Intersos in these areas are founded on a community based approach. From the very beginning the targeted population was involved with direct participation in the process of rehabilitation. This approach aimed to facilitate and increase the sense of ownership by the population of the projects promoted by Intersos.

INTERSOS, in the framework of its activities in **Sudan** (Darfur), is currently selecting candidates for the following position.
